

17th Students' Science Conference 2019

Students' Science Conference are a remarkable 4 days, during which passionates of science and the authors can exchange their views with in a variety of fields from all over the world. It is a unique occasion to present, talk and compare your research data, which may even change the fate of the world!

Date and time:

This year's meeting will take place from 18th to 21st of September, 2019. The venue for the conference will soon be announced via our website, as well as the Facebook page.

Who is it for?

The event is aimed for all the first and second grade students, as well as for the freshman from the Ph.D studies.

The People behind the Conference:

As always the Conference will be organised and managed by the staff of Politechnika Wrocławska; Karolina Kolbusz will be the main co-ordinator of the event, accompanied by her staff who will aim to do their best to manage the Conference successfully. Politechnika Wrocławska is one of the leading educational institutions in Poland. Due to its success and constant development, its reputation among European and World leading universities in the field of science and technology is quickly growing as it reaches higher places in the university rankings each year.

The development within Politechnika Wrocławska allows our staff to teach in the best possible way. New facilities and equipment accompany and aid in our learning at Politechnika Wrocławska and provides many opportunities for research for both students and staff. This development has enabled the university of Politechnika Wrocławska to establish partnerships with the local economy allowing for possible future innovative development. The university educates specialists, highly valued and respected within their profession making them extremely employable individuals. Politechnika Wrocławska is not only a University of Science and Technology, but also an institution of research. Our aim here in to not only pass on reliable knowledge, but to also be leading pioneers, developing creative methods and ways of thinking in further ourselves and others. The University is progressing due to our high standards of research, out want for creative international students who have a drive to learn and contribute, and our World class teaching, customized to the ever changing demands within the jobs sector. Politechnika Wrocławska as a community is a open-minded place, which cultivates the positive values and traditions of others. Our versatility with other universities and the wider community is an area we are most proud of.

What are the benefits of attending the conference?

All accepted and presented papers will be published as post-conference proceedings under an ISSN reference with assigned DOI (Digital Object Identifier) number. The proceedings will be also submitted to Low Silesian Digital Library and ResearchGate.

Selected papers will be invited to submission extended version to our partner journals:

- Challenges of Modern Technology
- Acta Innovations

What's more?

Beside the possibility of presentation and publication of your research data, which themselves are a great success in their own right, the organisation committee has planned for many more accompanying events. The goal of these events being to support young scientists on their first steps within their scientific careers, and also to help those people who may want develop their public speaking skills. It would be the hopes that there complimentary events inhibit the passion of the conference attendees. One of the events will provide the opportunity for those representing research facilities of above average results to present and discuss their reseach.

Important Dates:

- **Papers Submission:** 10.01.2019 - 31.05.2019
- **Authors Notification:** up to month after submission - 31.06.2019
- **Camera Ready and Registration** - 31.08.2019
- **Conference** - 18.09.2019 - 21.09.2019
